WHAT ARE SOME CHANGES?

The following illustrates how Summit Speech School is adapting to keep everyone safe and healthy.
Buses: Arrival and Dismissal

- The buses have been instructed to park at the side of the building to minimize interactions.
- Your child will walk with their Teacher Assistant to the side door that is directly connected to the preschool wing.
Quick check!

- Your child will be greeted with a smile one at a time behind the safety of plexiglass.
- Their temperature will be taken and recorded before walking down the hallway to their Teacher of the Deaf classroom.
Classrooms: How are we making the environment safe?

- Students will sit 6 feet apart during therapy sessions with a plexiglass divider
- Students will have their own box of toys and manipulatives that will be cleaned at the end of the day
- Classrooms will have a pitcher of water and disposable cups for every child to eliminate the use of water fountains
- Handwashing will remain a crucial part of our daily routine
Classrooms: How are we keeping everyone safe?

- Students will spend the day with the same TOD, SLP, TA and peers in their homeroom.
- All teachers will wear clear masks during the school day.
- More protective gear is readily available in each classroom for diaper changing or potential illness (gloves, face shield, protective gown).
OH NO!

What happens if someone gets sick?
Where will you go?

Nurse’s Office

- Our nurse will be available for any health related visits

Resting Room

- If a child is exhibiting possible COVID symptoms they will go directly to a separate room to rest until they are picked up.
Be safe, be healthy and above all be HAPPY.

- While there are many changes this year it is all to help and protect the health and safety of our staff and students. We are excited to be back working on our listening and spoken language skills!
